

This is the third diary in sequence. In the front cover of this is a very creased hand written poem which William Mitchell wrote sometime in his outback tripping around.

A sabbath day away from home
From all that's near & dear to me
By choice I chosen far to roam
The wild new england bush to see
Oh how my heart doth wander back
Where all I love content do dwell
Where they lifes blessings sweet enjoy
And time in praising Gods son
& here we are beside a creek
where a little stoney nob
is place to go & nought to see
but stock that here are running wild
My sabbaths now seem thrown away
no house of God in which to meet
with those who wait at Jesus feet
& tell of his love by the way
Oh how I miss the sabbath school
that used to be my greatest care
I miss the children they miss me
Oh when again shall I be there
A life that's burried in the bush
is just a life that's spent in vain
we miss the higher brighter joys
& nothing after all remain
& shall I spend my life to gain
money for someone else to spend
that his is a godless recless life
when all my labours have an end

written in the tent at Johns creek

In his diaries William Mitchell introduced his own shorthand for some common words. The known ones have been expanded in the text reproduced. There are also some not yet decoded.

Most obvious symbols used by William Mitchell
in his diaries.

that or who	\ were	\ when
/ the or who	∫ came or come	
— place or way	— where	— road
/ end or cattle	@ horse	3 or c collection
) selection	∫ paddock	o children
✓ creek	(o) there	

It should also be noted that capital letters are not always used for names or starts of sentences as we use them today. The punctuation is also different in that a comma is often used to end a sentence. If I make comments they are included as [this].

26th September 1879

I went with M^{rs} Orchard
to Buckingham street in the
morning to see a house that was
to let, there was a sale of furniture
in the house the same day, a woman
came in while we were waiting to see
the furniture, M^{rs} Orchard said
I was a single man, & she said
to the effect to me, here is your
match, she is tall, sharp point
on nose, frizy hair, Mifs T
Robson, a beautiful form,
but not a beautiful face, she
ought to be very orderly, very determined
be able to jaw a hurycane, & blow
up as quick as a powder when
fire gets to it, ought to be

intelligent & I think educated, M^{rs}
engaged the house, I came home to
dinner, she stayed till the sale was
all over & got the key. I had a walk
down George street went in for
my photos. but didnot get
them, came home wrote a letter to
Bob & went & posted it, after
tea I helped to bring some pictures
to the new house, I went 2 trips with
Fred, Bessy, & Mary, & then
went over to Richards's with
M^{rs} Orchard but they had left
so we had a long walk on a fools
errand, we called in at her daughters
(M^{rs} Wescot's) came back, when we
got back I went over to Hoskings
to see if we could leave Browns

boxes there, Hoskings political ideas
are mixed & muddled respecting
M^r Berry, J^{no} James etc, got
6^d worth of oranges & came home

27 was up abt 5 o'clock & helped
to load the furniture, I went
up to the new house when the
van went up the first time, but
Fred was up with the spring cart
the second time just as soon as
the other fellow got there, I stayed
there after till all the stuff was
up I then went in the spring
cart to the other end of George
street with Willy going to
work, came back & helped shift
M^r Browns boxes to Hoskings

they were very heavy, we then went down to the warf to see the Richards boat they had not come, went on bord the Leura she looked loaded with oranges, we then went near up to Stephense's when we met Richards coming in a van with his furniture, he said the rest were just coming in a buss so we went home, & M^{rs} & Bessy went down in the spring cart to the warf to see them off, I stayed & helped Mary fix up some beds, had my dinner carried some stuff upstairs, & then went to the exhibition, it is 1/ tickets to day & the building was swarmed with people

the opening day was nothing to be compared with it, there is a lot more exhibits all the time to be seen, I saw Miss Finch there but she seemed too much taken up with her female friend to get a chat with her, I got through all the courts on the main floor today, there is some marble sculptures that I very much like although they are very small, the anatomical exhibits were to be seen again today, I got a chair in front today but I thought it was better to be without an headache tomorrow than to hear the singing today

so I gave my seat to an old
woman when the consort ?? was
on there was no getting anywhere
that I could see near the choir
& I didnt try, the place was
thronged, bought this book &
got my likenesses on the way home
& stayed in in the evening & wrote
so far, Amen

I forgot when I came home to dinner yesterday
the two Mifs Richards & Mifs James
was there, when they went they left
2 tin plates behind them which I give
Richards to day, Orchard received
a letter from Brown to day he
got the letter I forwarded all right,
after I was in bed Orchard said
my fortune was made, the tall girl

referred to yesterday had been talking
with the M^{rs} abt me just now
into the butchers next door,

28 Sunday

Went with Orchard & Fred
to Cleveland street Wesleyan
Church, we met Miss Finch
on the way she was by herself came
against us, we didnot stop, M^r
Thompson gave us a good
sermon on the betrayel, trial,
& crucifiction, he is a good
preacher, mild I would like
it better with more feeling in
it, went part of the way home with
M^{rs} & M^r Cruthers, wen we
left them we was near home,

after dinner I went to the Cleveland
st Sabbath School, when I went
in I sat on the back seat by the side
of a young woman that I noticed
across & near the other end of the chapel in
the morning she gave me a hymn
book with miss Dean on it,
the room was well filled but as
soon as the school was opened half
the children went out some into
the church some into the vestry etc,
I got left on the seat by myself
the superintendant said he liked
to find something to do for visiters
was glad to see me come to have a
look at them etc, they were full
of teachers this afternoon, he took
me into the library & I took a book

to read, the secretery showed me his book with the returns showing the money the children collected for the missionaris etc, he was very sociable had a chat with me & went to his book again a young woman was on teaching infant girls, they were well behaved & she put them to sing etc, the superinetendant then took me into the church to see the infant class girls they were taught by a woman perhaps 30 of them & behaving themselves remarkably well they sang well together & I spoke a few words to them, came back into the school & the young woman that gave me the book Miss Mary Anigan came back again with her class the adult

girls from one of the vestrys, the school was closed in the ordinary way, & they then sang a hymn while the children went out, I came home had tea & went out with Orchard & Cruthers to botney calling at Wescuts for Fred & Bessy, Orchard preached on ye men of Gallie why stand ye here gasing up into Heaven, he preached a good sermon but the room was very close, we stayed at Tiff, before the service Annie Tiff played the organ in the house & sang & got the 2 boys abt 2& 3 yrs old to sing they sang well for children, she is evidently a smart active lump of a girl abt the right sort for a

usefull farmers wife I walked
up to Chaple with her, they invited
Orchard to come out on tuesday to the
missionary meeting, Orchard told
them I had made some money &
have been looking for some land
& wanted a wife recomended me
to the girl etc, she said if she
had me I would have to build
a house at Botany, I said
I could do that in 2 hours that
would keep out wind & rain
etc that abt the substance of the
chat after chapl while Cruthers
was puting the horse in the cart,
Cruthers offered to drive Orchard
out on Tuesday, we had a
widow with us in the cart & 2 or

3 children most of the way home,

29 in the morning abt 9 o'clock
Mifs Cruthers called in & asked
me who give me the hymn book
in the sunday school, she thought
it was someone else, instead of
Mifs Anigan, she was very inquisi-
tive, asked lots of questions, said
she knew all about it but spotted
on the rong one, I wrote a letter to
brad & one to the post master general
to get my letters sent here instead
of Pitt street, this place is 47
Buckingham street straw
berry hills, posted the letters
got 1/ of stamps, went to the
exhibition, went into the British

& foreign Bible Societys stall
& had a look at the books, there was
a bible bound in what I think
persian calf for 1/6, if it was
a Wesleyan hymn book the same size
etc it would be 4/6 or 5/6 catalogue
price, the man shewed me a bible
like the one we got in Bethanga church
said it was very cheep he hadnot
seen anything so cheep the 20 years
he had been selling books & asked
me what I though the price I
said 27/6 which was correct
the same price as ours,there machinery
is in better order, one engine had
steam up, saw a piece of tweed
partly woven, saw about a
dozen Alpaca crasing near
the sheep shed, they are abt

as high as donkeys & more the build
of camels, & was told they kick
like a horse if you get near them,
& that they would spit at you
through their nose, or some one else
was told it, & I heard it, the
judges were judging the sheep &
no one was allowed in the sheds, I
looked in saw the judges parting the wool
2 or 3 places on the sheep so as to see the
length & quality etc, got 4 tarts
& a cup of tea for 1/ at the refreshment
stall towards the machinery sheds,
went on the bottom floor got a
exhibition memorial for 2/ saw
it stamped & punched & the ring put
in it, had a look at the buggys,
carrages, cart, wagonetts, & a

spring carts, one exhibiter shewed me
a patent for letting a horse go with
the shafts if he bolted & stoping the buggy
but I think it would take rather
long to let the horse go, there was a
fine buggy made in Maitland
for a family, & 4 or 5 other good
ones for up country, saw some
pretty Japanese needle
work up stairs birds worked
with silk, there was good singing
at the consort, but nothing near
the people there to day that was there
on saturday, one part of the gallery
is closed to arrange the technological
part, I saw some skulls there,
paid two pence to the fellow that
keeps the part of the exhibition called
gentelmen, I got 1/ woth of tickets

at the tramway office & had a ride
home in car, it was drawn by the
engine the first time to day, the carriage
will carry 60 inside beside the top
covered with passengers, in the evening
I went to the IOGY meeting
but they dont meet untill tomorrow
the daughters of Temperance meet
to night, I went a fools errand
& then came home & wrote this, I had
a short talk with a Bro IOGY
from Hill End a policeman
in the exhibition to day, there
was some big pigs, one was
an enormous size looked only
in fair condition big enough
to fill the shafts of a dray
ought to fatten 7 or 8 cwt

it had a black hide very little
hare & look more like a hippot-
atimus than a pigs skin &
is a bore,

30 wrote a letter to bob &
posted it with a photo to him
& one to aunt Emma inclosed,
& sent him the book on stammering,
I called in to Hoskings & got
some oranges, went to the exhibition
went through the sheep sheds, there
is abt twice as many sheep
catelogued as were exhibited,
they are splendid sheep I suppose,
a lot of them large merinos, &
there was a few monstrous looking
coarse wools with 16 or 17 months

wool on them, 3 angora nany
goats they are white & small,
& two of them were much pretyer
than the other, & a big billy
goat not minus smell, the
Tasmainian sheep as a rule are
best, the French got severil
special prizes, & N S W got
some, I only remembered seeing
one sheep that came from Victoria
I put in the most part of the day
looking at sheep etc, the cham
pion fine wool ram is a small one
but has very superior wool,
had dinner at Crisps, bought
a catalogue of the sheep for 6^d
& a paper coming home, saw a

few little Roman images broken
& a part of the stand of a singers
sewing machine, went round most
of gallery, & then went into the N
S W court & had a look at a
churn that is patented, it is said
to make 5 per cent more butter
& better out of the same milk
than is made the old way &
a cleaner process, in the evening
I went to Botany rather against
my will because Orchard bothered
me & I went to please him, I
intended to go to the fellowship
meeting in Cleveland street
Wesleyan Church right up
to the time we started, Orchard give
the first speech & he kept us

laughing abt ½ an hour
the people was well pleased but
M^{rs} Orchard was rather crabed
M^{rs} Crothers & M^r Crothers was
there also, we had 2 ministers & a
woman with us in the cart coming home,
after the meeting we went into
Tiff's the girl looked rather better
to me more even & of an open
free disposition good night
was all I said to her we
had some milk & currants
& sponge cake of good quality

1879

1st October went to the exhibition in company with Fred, we went through the sheep shed there is lots of the sheep catelogued that are not present, & there is abt a dozen that are not catelogued of English large sheep, there was 480 days wool on them & not very coarse, some of the machinery was working, the weaving machine was making a piece of tweed, a young woman attending to it, another young woman was winding cotton on reels by machinery, there was ice in a machine that was working yesterday, could read through it 1 or 2 inches thick, there was Yanky endless saws etc working

we had dinner at Cripp's
had a stroll through the exhibition
went over & see the Fiji natives
carobaying from under the door
we could see their legs, it was
1/ to go inside but we see enough
from outside, we went there & back
in the tram carrige, went to Cleveland
street church in the evening & in to
M^r Crothers came back, saw a
lot of good big berkshire pigs
in a place I missed yesterday

2nd went to the end of King street
& took the steamer & went up
to Parramatta 15 or 16 miles
up river, there is nice scenery
going up the river, went over

the champion skulling coarse
its a nice place to row I think
saw the salt beds on the way up,
it looks like 2 or 3 acres
of tailings or sand & some brush
dividings just like we would
throw sand against to keep
water back dont see how
they get salt there should fancy
they would have to put some pans
there to evaporate the water out of,
there was machinery houses enough
there but not many dwelling
houses, I was on top of the steamer
& was charged 1/6 cabin fare,
saw the pillars of the iron bridge
they looked rather low to me,
when we landed I went in a
buss to the town, there was a fine

garden at the river & nice land
all the way to town if I remember
correct, I went into the first Hotel
to get dinner when I got of the buss,
I believe it is a crib I waited
over $\frac{1}{4}$ an hour & then walked
out & off & got dinner at
a little shop were I saw
refreshments marked under the verandah
had a stroll round by myself & then
came home in the train, I went
to the young mens christian assoitation
in the Cleveland st Wesleyan school
room & heard a debate on which
is the most worthy of our admiration
Moses or Joseph, there was abt a
dozen spoke well on it each
making out a good case for the

one he was in favour of, I enjoyed it
it very much, there was 30 or 40 grown
men & woman, there was 7 votes for Joseph
& six for Moses although I think
the best case was made out for Moses
I came part of the way home with M^{rs} &
Mifs Crothers

3rd I went to Geo Robinsons
my books hadnot come, I got
a revolver at for £3
its the latest improvement 12 wire
cartridges for 3/6 a shot flask
for 3/6, M^{rs} & Mifs Crothers
was came down just after I got
home to go to the cemetery, Anne
& Fred went with us we had
a very pleasant day the grave
yard is one of the most interesting

places in Sydney, we went
into a house & had some tea
before we came home at Rookwood,
I went up to Crother's when
we came home & stayed all the evening
Fred came up just as I was going
start, he was under the influence
of alcoholic liquor & had been
quareling at home, there was a
rumpus at home when I got home,

4 Went to the exhibition had dinner
at Cripp's left abt 4 o'clock,
rode home on tramway, in
the evening went to the IOGY meeting
there was the officer of 2 or 4 other
lodges there, there was a lot of

people there, after the business was done
the meeting was closed & then they
had harmony with the doors
opened to the public, two little
boys sang first rate, called
on Hosking coming home, met
young Joseph & Cohen the Jews at
Cripps to day, they have been a
long way since I saw them, Jospeh
just came from Brisbane & Cohen has
been along the N S W coast south,
the IOGY lodge is a sailors lodge
& most of the officers were sailors
a sailor opened the harmony with a
song. I'm going to marry Kitty
with the buckels in her boots, another
sailor sang a piece abt a sailor going
away & leaving his true love
behind, & if in the meantime she be

false then I be free, I be off again
over the sea were there is others as good
as her etc.

5th Sunday

I went to Cleveland street
sunday school in the morning
I went into the adults class which
is formed chiefly of boys, there was
a lot of reading & very little
remarks in it not so much as
I would like, a young minister
preached a good sermon from
part of 2 verses in Hebrews, Looking
unto Jesus, his name is Thompson
the same as the minister that preached
last sunday it was a change
with them to day, was at

school in the afternoon, & then I went
for a stroll by myself, M^r & Mifs
Loutit & another man overtook
me & we went to More Park
I was with M^r Loutit, the
Park is a very fine place
for recreation & there was a good
breese up, I went home with
Loutit to tea when we got
there MifsLoutit was home, &
she introduced 3 other young
women as her sisters they
are all Marriagable, 2 of
them are alike of a mental
tempremant, & would bear
critisising as regards points,
Miss Loutit over 30, motive
temprenamt & very active etc
or ought to be, the girls

was at me with a subscription list towards the William street Church & got 2/6, they had tickets to sell for a consort 2/ each in aid of the above church but I didnot want any, at Cleveland street in the evening, the same man peached from the words, Who gave himself a ransom for all, there was a good prayer meeting afterwards I & Orchard stayed came home with him,

6th I went to Crother's before breakfast for his spring cart to shift Browns boxes from Hoskings, after breakfast Fred & I went to circular key

with M^{rs} Orchard against
my will [the women are an humbug
sometimes) when we got back to
Hoskings Brown had been
there & gone again, we then went
to the warf to look for him
& when we got back to Hoskings
he was there, he & Fred put his
things in the cart & brought it
home, I helped shift Hoskings
things across the way into a yard &
then came home, had dinner &
went to the exhibition, met Bill
Phillips from James's there &
then met Mifs Loutit, her
sister & husband together, I went
round with them, took Miss L
up the tower with the stair case in it.
had an invitation to tea but

didnot accept it came home to
tea, M^{rs} was vexed & we had
same old jaw with our tea I
would much rather she would
shut up, I went to the prayer
meeting in the evening, called at Crothers
on the way home Orchard & Brown
were just leaving, so I didnt
go in, But I stayed & had a yarn
at the door & might just as
well have gone in.

7th I went up for the cart &
Fred & I took Browns boxes
down to the warf, the steamer (theErsk)
wasnot in Brown came as far
back with us as the post Office
& then we left him, we came

in the ship can get it tomorrow,
met John Atwood at Post
Office, was with him again
in the exhibition after 3 o'clock
when I came home Eliza Loutit
came & said her sister sent her down
to see if I was going to the consort
in William st church, I went
home with her to tea & then
went to the consort with margaret
there was some very good
singing, piano solos by Miss
that plays in the
exhibition some times M^{rs}
that sings in
the exhibition sang a piece or two
and 6 bell ringers gave 3
tunes it was grand & they

were encored twice I enjoyed
the evening very much, Eliza
promised to come with me to the exhibition
tomorrow & afterwards refused
to go without her sister.

10 went to Loutit's couldnot
get Eliza to go without
her sister may took both
of them & enjoyed their company
very much Eliza 16 years off
a beautiful form & face
to judge by points, may
22 years, thin, looks well
any how, will bear conditioning
for form or face either, had
tea with them & stayed there
all the evening. margaret is

very friendly to me, but Eliza
the most interesting, she is too young &
health too poor according to her own
account although she looks old enough
otherwise she ought to do me to take
home & probably shee'd go, saw a man
in the building that I took to be Keough
from Bethanga but didnot speak
to him, broke the handle of Lizzis
parasoll in the evening by sitting on
it,

11 wrote a letter to Aunt mary
in the morning & posted it in
the newspaper receiver at the
railway station, walked to
exhibition it being too long to
wait till the next car ran, had
dinner before I started went through

the machinery halls bought some
cotton reeled there, went into
the 6^d peep show, had a galvanic
shock there, went through a lot
more of the building, went into the
closed part of the gallery with
the man in charge who explained
to me about the Islanders weeping
skulls, etc, & showed me a common
sea pebble that they worship as a
god fish, came back through
George street, Geo. Robertsons
was shut up, Annie got me
a monkey on a pool in the evening
from the market

12 Sunday

went to cleveland street
sunday school & took
orchards children, taught
a class of little girls, as
soon I got through the lesson
I left came home went with
Fred to Waterloo & heard
M^{rs} Waters preach for abt
an hour she is a good
preacher I enjoyed the service
well enough, to Cleveland
st sunday school in the
afternoon Rev Lane
adressed us, went to more
park after with Miss
Loutit she left me there
& she went to meet
a friend of hers, there was

a young man there preaching
I then went over into the other
park, M^r Udale was
preaching there & after he done
M^r Orchard preached, Dr
Kalynack gave out the
hymns prayed etc, went to
Crothers to tea & to Cleveland
church in the evening. Thompson
preached, I stayed to the
prayer meeting.

13 went up to Loutit's in
the morning & came back through
the town, went to the bank
& got cash bought some
books & a parachute
in place of the one I broke

& took it up stayed there
till after tea, went to
Crother's & then came home

14th I was up early & packed
my box intending to start
for home, Orchard being out
of work to day wanted me
to go to Liverpool to see the
girl that has the £8,000
I thought one train went at
8 am & another at 10 am & overtook
the other train & went on to Wagga
I went to the station at 8,30 to see
the time table intending to start
at 10 o'clock but found that
there is only one morning train
three times a week that goes
to Wagga & the train went at

8 o'clock & I should have to
go in the night train or wait
till thursday, came home & Orchard
was very anxious to take me to
Liverpool, he went to see for work
called at Crothers & told were he
was going to take me, came back changed
we went down town to see M^r
Oliver he was out when we found
his large wholesale grocery warehouse
in George street in which business
he is a partner, we then went
to the station I got 2 tickets at 2/each
& we went to Liverpool by the
11.30 am train got there abt 12.45
went up to the Olivers which is
a large wether board house
rather old & low built

in a large garden well stocked
with trees & looking in good order
etc, we saw into several rooms
chiefly bedrooms looking all
right before we came to the door
at which Orchard knocked &
and a young woman answered
the door, Orchard told her who
he was, & that he was up there preaching
one Sunday when she & her aunt
was away, & that I was a young
man from the country down to see
the exhibition & would like to see
Liverpool & he brought me up
there, she asked us in to sit down, &
asked his name & went into another
room, she is tall rather even &
square built, was dressed in
her dress, but I did not

notice any odd feature about her
or any thing to pass a remark abt
she looked well enough for anything
as far as I saw, she looked pleased
when she left, the room was rather
untidy for a house in which there
is as many women & a servant
woman, after a while a man came
in & said M^{rs} Oliver was very
sorry that she could not be seen
today they were in a disturbed
state at present packing up or some other
such stuff, & that we could go
up to M^r Carbines at the store
that the horse was standing
infront of, we went up
& I wanted Orchard to go to an
Hotel & get some dinner & not

go in there at all but he wouldnot
he went in there, introduced himself,
I stood in the door, the storekeeper was
very busy & not talkative and
after a while we left, had a
stroll round the town, had a look
at the hospital which is a fine
big place & answers for benevolent
asylum etc as well we saw
a lot of men that looked like
outdoor patients & I here there is
600 or 700 in the institution, Liverpool
is nicely situated on the bank of
a river but away up above
high water, there is a wool
washing establishment & some
factorys, I had a good laugh
abt our exploit, the reception
we got etc. Orchard was

vexed & said dont laugh Mitchell,
he says he never had such a
cool reception anywhere before,
we went back to the station
before 2 o'clock being told that
a train went to Sydney at
2.5 by the man at the store, I asked a man at
the station what time the next
train went to Sydney he said
4.38 we took a stroll round
& Orchard wanted to go to the
station again & wait but I
prevailed on him to go down
the line 2 miles to the next station,
the 2.5 train passed us on the way
so we were sold again, we went
into the next station down the line
& Orchard had a chat with the

station master about M^{rs}

Oliver, got a long account
of her peculiarities how she caused
disturbances among the Wesleyans
when she was with them, near
breaking them up twice or something

similar {wrote this
at hillsborough}

in the evening went to Loutits with
M^{rs} Orchard & showed
M^r Orchard were it was, was
out in the kitchen with Margaret
& told her all abt our days
exploits & agreed to meet
her in the exhibition tomorrow
with another young woman,
Orchard came there after he had
been to see D^r Kalynak
he give us some of his Billy

Brays history that is not
in the book it was very funny
& interesting

15 was at the exhibition met Margaret
& Naomi as agreed to last night
I got dinner at Cripps & they
didn't they had their cross
with them went round with
them all day, bought 1/ worth
of lollies made in the machinery
hall. they had a little boy with
them, we saw what I suppose to
be a Mouri chief in his own
dress which looked as if it
was made of the skin of
cocks with the feathers on
there was no tattoo marks on his

face, but there was 3 women with him & one of them had her lips tatooed black they were all big strong looking people minus refinement, we went up tower saw mouri woman there but the man stayed below, I went down George street to get a patent iron but altered my mind. got a box of cartridges for my revolver, went home with Margaret she said they had somthing in store for me I thought wether it was abt Eliza & got prepared for it, but I found it was a subscription list that Mary wanted me to head, I gave nothing, Margaret was or pretended to be much affected

my going away etc, said she wished she had never seen me I thought she was ready to come with me we saw 2 lace collars in the exhibition made by the mifs Higgins of Albury, & the 400 lb cheese in the place below saw M^r Letcher & also M^r Atwood there, got a clothsline to tie up my box in the night as I went home.

16 gave M^{rs} Orchard 15/ for my board Orchard helped to carry my box to the station paid 39/6 for my ticket the box went free paid 1/3 one place & 1/ the other for refreshments I think it was, saw some good land after got pass Liverpool & saw

a good few stock I tried to write in the book but couldnot it shook too much, there is a lot of lightly timbered rolling ridges that look very nice for sheep etc as we got this way toward Wagga, there was a man in the train that lost his hat out the window before he got to Goulbourne where he got out, another man had a pass to Jewnee & came to Wagga so he had to stay till the morning train & go back abt 20 miles, left Sydney 8 o'clock am & got to Wagga I think 10.15 pm. was charged 2/ for taking myself & box to the commercial hotel where the coach starts from, I was charged 6/ for my bed & breakfast & was

17

waited on in stile, I paid £2 for myself & 15/ for my box to Albury & had my ticket marked so that I would wait a day at Kings Wagga is a large & I think grand town on the bank of the murrumbidge river, a man asked me for 2 pence when I was going to walk over the bridge so I did not go. I wrote a letter to Father, & inquired abt a horse to buy there, heard of one sold cheep yesterday & came in the coach with the man that sold it, got some oranges in Wagga, paid half a crown for my dinner there was some very nice looking land abt I dont care much abt a lot that we passed notwithstanding & we got some rain on the way

had tea at Kings paid 2/6 for it &
started again in the coach but got out
when we came to the next Hotel abt a mile
on & went back to Dicks to buy
a horse if I could get one, Emma
Wilkins was there & has grown wonderfully
since I saw her last she is a good
lump of a woman a good deal
larger than Susan. I told Susan
that I told Dick Goldsworthy
that Anni said she would have
him & that Dick said he would
have anne if I would have
Susan in the evening I
was in the parlour with the girls & a
young man that intends to be a
minister named Greeves they
told me abt Higgins selling out
going into the lunatic asylum

etc, Greeves thought he went out of his mind abt religion but I differ from him, from what I have heard before & would rather think his religion has kept him sane, I forgot to mark the morning of 17th so there is 2 days in this much

18 a very wet day had a look at a horse that Dick had to sell & at one that friday Dicks groom had to sell but they didnt suit, in the evening before the coach came a man rode up on a bay mare that I took a fancy to & lead a bay horse, he tied them up & came in & got a drink Dick & the rest admired the horse

I bought the horse for £8-10-0
the price asked for him of
Daniel Kirk who lives at
Wagra in the upper murray
NSW side.

19 Sunday

paid King 10/6 for self
& horse borrowed his saddle
& bridle & came down to Selinas
before dinner crossed a deal of water
on the way down, in the evening
rode around with them to see
the cattle, met a man that
said there was a horse for sale
that could walk 7 miles per
hour

20 Nick & I went to Peter
Burtels to see the wonderful horse
he was in a paddock Peter said
his price was 10 pounds, we then each
rode our own horses & had a look
for the cattle with Theis I had
rode nicks mare & dont care
abt her, we was going up to
Gregsons but it being dinner
time we came back we talked on
the way of which horse could
gallop the fastest, Theis was in
side the gate last & shut it. he then
galloped past me toward the house
& I galloped after him, when
we got near the garden fence I got
confused the horse was going one
way & I went to pull him

the next thing I knew was I was
lying on the sofa, evidently the horse
& me both came against the fence pretty
heavy, when Theis came back to
me I was lying on the ground with
my foot in the stirip, he thinks
I was unconscious abt half an
hour & he thought I was killed
when he came to me I was bleeding
at the nose I think it was abt an
hour before my reason returned
Theis says I said it was all double
dutch to me whatever he would
say to me before that, & I
remember nothing abt it
I went to bed & Selina
boiled me some marshmallow
& I bathed my head where it
was swelling & sore & the

swelling was started to go
back

21 I went out in the morning to see the place where I got hurt but my head was not clear & I had a swollen black eye, I bathed it in the morning & in the afternoon I went for a ride to Gregsons & had a look at his selection that is for sale, there is plenty of grass on it & 1400 sheep they got near 700 acres & according to his brother who showed us around they have had the grass of 500 acres as well, the floods had knocked a lot of the wire fence down in several places

they want £1300 for the lot & say there is £200 worth of wool on the sheep now, when I went to saddle up I found that Dicks saddle was broke & I took it to the sadlers it had the tree & gullet plate broke

22nd paid 14/ for repairing the saddle & a 1/ for a strap to go there as a throat strap, there is a lot of mud betwen Gregsons & Theis's, saw a lot of Chinaman straitening some wire fence that has been knocked down by the water as I came along the road but there was no creek to be seen, I give a man 2 shillings that said he was hard up but believe him an imposter, stayed

at the Temperance Hotel in
Albury, went to the office &
got my saddle out of the box &
left Dicks to be sent on
saw M^{rs} Peach M^r & M^{rs} Day in Albury

25 in the morning Lobban came here & Father paid him 30/ for the cattle he stayed to dinner & was very talkative, he said if anyone wanted one of the daughters they could have all three, in the afternoon I & Brad went back in the bush shooting at a gum tree @ 150 yards I hit it twice but Brad missed it each time, we then fired at a tree abt 50 yds of & put 2 bullets each in it, & then Fred & I put other 2 bullets in it when we had fired all our bullets the Wilberforce boys came up & after I had a look at where Brad had been shooting with shot @ a gum tree etc, I came home,

26 Sunday

Art & I held Sunday school in the morning there was 19 children present, there has been no school since I left, after dinner Jane Oats & Sarah Bartels came here. they would have been out in the morning had they not waited for Jessy Anderson who was to come but she had not got a horse, Jessy told Jane to kiss me for her but she would not, I gave Jane a kiss to take back to Jessy, we went for a walk with Art & Dinah to the Homeward bound & then around the spur & down the Birthday way & came home after tea the girls went home by them

4 doo

5 left Hillsborough abt 6

am & went to Bethanga to
peg out the river bend that I
applied for last year. I put
in the first peg by the river at one
o'clock PM. could hardly get
through the tussick grass to
get to the higher end & I was
rather carefull abt meeting
snakes but I saw none put
in another peg & crossed over to
the fence to put in the other
peg & saw a peg the other side
of the fence, went & had a look
at it, it had a notice on
it & I coppied it, it was
Archibald Lobban applying
for the land the same day it was

12th We went to the Finleys sale, there was plenty bread & cheese, sandwiges with maggots in the one I got, & plenty to drink of spirits, cordials, & water, Father bought 418 acres between the 3 of us at 92/6 per acre, I bought 325 for myself at 86/ per acre, & Ellis bought 639 acres at 40/ per acre, Wallace bought 320 I think 54/6 per acre in spring creek the pre emptive was bought by Hore at 77/6 & the 4 blocks between the road & the pre emptive he also bought at 60/ per acre evidently for Finley according to present

information, we got the land we wanted & paid more for it than we expected to pay for it, I think the horses fetched a fair price 3 & 4 year olds, brood mares a few went cheap, the rest reasonable, some fat bullocks sold for £7. three of them are I think 1100 lbs. young bulls from from 4 to 8 pounds each I think it is, cant say much abt the price of cattle but think it abt beef price, they were not all sold, went to the singing in the evening, at Lewis's after Mifs's Cole & Richards were there although they hadnot

been to the singing

XX

cattle they evidently got
poisoned in our paddock
they were put inside the gate

told they noticed that the cattle
never moved of the flat this
